SKILLS

TESTING
• Functional testing • Blackbox testing • Regression testing • ETL testing • UI testing • Database testing

ETL TOOLS
• IBM Datastage • Informatica • Apache Airflow • Google Dataflow

DATABASES
• IBM Netezza • PLSQL • Google BigQuery • PostGre

LANGUAGES
•Python • LaTeX

MISCELLANEOUS
• Jira • Rally • SDLC • Postman • Agile • Waterfall • Sprint planning • Hiring

EDUCATION

UTTAR PRADESH TECHNICAL UNIVERSITY
Bachelor of Technology Electrical and Electronics Engineering
2011 - 2015 | Lucknow

CATHEDRAL SCHOOL
Grade 12
2010 - 2011 | Lucknow, India

AWARDS

• "Best Performance" certificate for exceptional contribution to the client. Contributed for 5/5 CSAT score by Client - IBM • "Extra Mile" certificate for exceptional contribution - Capegemini. • "Client Appreciation for going an extra mile" for three consecutive years 2017, 2018, 2019 - Citustech • Certification of Appreciation, - Citiustech

EXPERIENCE

IBM INDIA PRIVATE LIMITED | Advisory Technical Service Specialist
May 2021 - Present | Mumbai, India

- Validation of the database migration project for General Mills (client) by transitioning from their legacy Hadoop system (Hive database) to Google Cloud Platform stacks such as BigQuery, Composer, Cloud Storage, and Apache-Airflow as part of Cloud Acceleration Program (CAP), resulting in a 40 % reduction in service costs.
- Additionally, enabled real-time streaming data validation through Dataflow jobs in Google Cloud Platform, significantly decreasing streaming data latency and enhancing real-time data availability for analytics teams.
- Showcased strong QA leadership, handling test strategies, scenario creation, execution, bug reporting, team guidance, and defect triage while acting as a single point of contact for CAP projects and delivering daily stakeholder reports on Scrum.

CAPGEMINI TECHNOLOGY SERVICES INDIA LIMITED | Associate Consultant
Dec 2019 -- May 2021 | Mumbai, India

- Guided the team in transitioning from waterfall to agile, incorporating agile practices effectively, resulting in improved collaboration, faster delivery, and enhanced adaptability to changing project requirements.
- Used Selenium to significantly boost automation efficiency, reducing manual effort and enhancing test accuracy.
- Managed ETL validations using flat files from various stock market data sources, streamlining data validation processes, and ensuring reliable data accuracy for critical business decisions. Additionally, providing automation reports to stakeholders improved visibility and transparency throughout the regression phase, enabling quicker feedback and informed decision-making.
- Created and executed test strategies, scenarios, and cases using Jira and timely bug identification and resolution.

CITIUSTECH HEALTHCARE TECHNOLOGY PVT. LTD | Software Engineer
Sept 2016 -- Dec 2019 | Mumbai, India

- Conducted testing for the Physician Quality Reporting System, a US incentive-based program for medical doctors, ensuring data accuracy and performance dashboard functionality through ETL validations using Datastage and Netezza.
- Tested the platform provided to medical doctors, enabling them to upload their performance reports, ensuring seamless functionality and data accuracy.
- Led massive lab data validations for Quest, the US's second-largest lab, to process and display data on UI dashboards and reporting systems, utilizing Datastage and Netezza for ETL validations.
- Demonstrated expertise in Client demos and actively participated in Scrum meetings while effectively managing the entire QA team.

CERTIFICATIONS

- 2017- Foundation Level International Software Testing Qualification Board Certification
- 2016- Software Testing Certification with Hewlett-Packard
